RE3 D	FP12 & 13 Bogie Horse Box, Pintsch Gas Lighting	140.00

### BLACK BEETLE DRIVE BOGIES HO/OO, EM, P4, On3, S and O GAUGE

- Powered by Mashima 1220 or 1224 flat can motor. Wheelbases from 25.5mm to 40mm in steps of 0.25mm.
- Wheelbases from 25.5mm to 29.5mm use the Mashima 1220 motor. Speed at 12V is approximately 3 scale miles per hour per scale inch of wheel diameter with 15:1 gearing.
- Wheelbases from 29.75 to 40mm use the Mashima 1224 motor. Speed at 12V is approximately 2 scale miles per hour per scale inch of wheel diameter with 15:1 gearing.
- Gear ratio of 27:1 is also available where slower speeds are required. Minimum wheelbase is also reduced with 27:1 gearing down to 23.75mm.
- Height of centre pivot above rail is 12.4mm plus half the wheel diameter. eg. with 10.5mm wheels the centre pivot is approximately 17.6mm above the rail level.
- All have flush axles as standard. HO gauge uses 20mm long axles, EM and P4 use 21.8mm and On3 uses 22.6mm.
- A bracket is included to which side frames may be fixed. (NOTE: side frames are not included)
- Wheel options:
  - 9.6mm disc
  - 10.5mm disc and 10 spoke
  - 11.08mm 9 spoke
  - 11.6mm disc
  - 12.0mm disc
  - 12.25mm Disc and 12 spoke
  - 14.0mm disc

Most sizes are available in RP25 - 110 and RP25 - 88 profile. Disc wheels in 12mm and 14mm diameter are also available in P4.

**Price for custom assembled Black Beetle with 15:1 gearing 95.00**  
**Price for custom assembled Black Beetle with 27:1 gearing 122.00**

When ordering please specify wheelbase, wheel diameter, disc or spoked, wheel profile, track gauge and gear ratio.

**Price for custom assembled Dummy Beetle 25.00**  
Includes pick - ups, but no motor or gears.

### BLACK BUG DRIVE UNIT

The Black Bug is a compact single axle drive unit using the same gearbox as the Black Beetle and a Mashima 1220 motor. Gearing may be either the standard 15:1, as fitted to the Black Beetle, or a second set of spur gears can be provided to increase the overall gear reduction to 27:1. Wheel choices are the same as the Black Beetle, or the Black Bug can be provided without wheels. Axles are 2.00mm in diameter and a 25mm long pinpoint axle is fitted as standard. Electrical pickups are not included.

**Custom assembled Black Bug with standard 15:1 gearing. \$66.00**

When ordering please specify wheel diameter, disc or spoked, wheel profile and track gauge.

**Custom assembled Black Bug with 27:1 gearing. \$76.00**

### KIT COMPONENTS

#### MISCELLANEOUS

M2 # 2 x 3/16 Pan Head Screws	4.50
M3 # 2 x 1/4 Pan Head Screws	4.50
M4 Delrin Pinpoint Bearings (60)	5.95

### NOTES ON AXLE LENGTHS

**23.8mm axles** are commonly used on HO scale models where it is desired to keep width over axleboxes to a minimum eg. finescale standard gauge models.

**25.0mm axles** are used in S.E.M. 4 wheel wagon kits, bogies B1-B8 and B11 and bogies by AR kit Co. This length also suits LIMA and Powerline and many Chinese made models.

**26.0mm axles** are used in most U.S. and British models such as Athearn, Roundhouse, Hornby and Bachman Branchlines.

**Order direct at RRP.**

**Please add \$11.00 post/pack.**

**If order is over \$200.00, but excluding locomotive kits postage is free.**

**Pay by direct deposit, Visa, Mastercard, cheque or postal note.**
